

**McElroy No.2CU Machine** butt fu e ½"

CTS - 2" IPS (16 mm - 60 mm) pipe. The No.2CU (Combination Unit) incorporate McElroy' patented Centerline Guidance Sy tem, and patented combination idewall feature. The No.2CU' narrow clamp de ign provide for butt fu ion of tee , elbow and other fitting . Additional idewall clamp with chain vi e allow the unit to be attached on the centerline of a pipe main for addle fu ion of ½" to 2" ervice addle , round ba e branch addle and mall tapping tee . Factory chain length will clamp up to 8" IPS pipe. Additional chain length are available for larger main ize .

- Lightweight and durable
- Sidewall capabilitie
- Fu e a variety of fitting
- Package include : fu ion machine, facer, Multi-Mc heater, butt fu ion heater adapter et, in ulated heater/ facer tand, crew/driver kit, and operator' manual

**McElroy No.2LC Machine**

butt fu e ½" CTS - 2" IPS (16 mm - 60 mm) pipe. The No.2LC (Locking Cam) incorporate McElroy' patented Centerline Guidance Sy tem, and i de igned to butt fu e tee , elbow , and other fitting with con i tent high quality re ult . The machine' emi-automatic locking cam y tem maintain force during the cooling cycle.

The machine i primarily made of urface hardened aluminum for light weight and durability. The jaw and in ert have multiple erration for maximum grip on the pipe.

- Lightweight and durable
- Semi-Automatic locking cam
- Economic alternative
- Feature new compact heater
- Package include : fu ion machine, facer, Multi-Mc heater, butt fu ion heater adapter et, in ulated heater/ facer tand, crew/driver kit, and operator' manual
