

TracStar® No. 412

- Track mounted, self-contained, self-propelled, all-terrain hydraulic fusion machine
- Jaw set/carriage can be easily removed for in-ditch use
- On-board generator and hydraulic pipe lift
- Fit in a standard long box truck bed for easy transport

PitBull® No. 412

- Compact for fusion above or in the trench
- Simple jaw set/carriage for greater portability

McElroy No.412 Machine will butt fuse pipe size from 4" IPS - 12" DIPS (110mm - 340mm). All models incorporate the interchangeable No.412 carriage with McElroy' patented Centerline Guidance System. Two fixed and movable clamping jaws result in precision pipe alignment for higher quality fusion joint. The machines are DataLogger® compatible and can fabricate segmented elbows with optional metered insertion.

- Wheeled chassis for easy maneuvering on the job site
- Jaw set/carriage can be easily removed for in-ditch use
- Hydraulic pipe lift
